

Daria Artemova Front-end

I am a passionate **front-end developer**. Also I'm interested in design, especially UX, and I'm working on improving my designer skills.

Front-end developer

Raiffeisen Bank, Moscow since May 2021

- Developing products for managers to work with their budgets
- Being responsible for front-end improvements
- Implementing UI/UX design for minor features

Key achievements:

- My teammates and I redesigned our salary increasing and bonuses dividing apps and created a handy admin tools
- Integrated Redux. It improved our front-end development experience, made our code base less complicated and confusing

Full stack developer

MTS IT, Moscow June 2018 - May 2021

- Developing a CRM system in JavaScript and C#
- Being responsible for front-end improvements
- Refactoring. There was a lot of legacy code

Key achievements:

- Integrated React, Redux and TypeScript (before we only used JavaScript, C# and Visual Basic...)
- Started developing a React components library
- Refactored some of our main features using new company's process engine and its own language

SQA automation engineer

MTS IT, Moscow June 2017 - June 2018

- Working with code and documentation, writing test cases
- Writing integration and unit autotests in C#
- Developing autotesting tools

Key achievements:

- Covered the whole code base with autotests
- Mentored a new team of SQA automation engineers
